

GAYATRI KATOLE

Computer Engineering Student | AI & UI/UX | Building Real-World Projects

Jalgaon, Maharashtra, India | gayatrikatole06@gmail.com | +91 7499766336 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Computer Engineering student focused on Python, AI/ML, Data Structures & Algorithms, and software development. Has shipped a live Flask-based web application (EduSearch) and completed internships spanning AI (Microsoft Skills for Jobs) and UI/UX design (UptoSkills). Currently deepening skills in Python, Git, SQL, and DSA while building real-world projects. Seeking an internship or freelance opportunity to grow as a developer and apply technical and design skills to real products.

SKILLS

Languages & Tools: Python, C/C++, JavaScript, HTML, CSS, SQL, Git & GitHub, Microsoft Excel

Core Areas: Data Structures & Algorithms, Artificial Intelligence, UI/UX Design, Web Development, Problem Solving

Design: Figma — wireframing, prototyping, usability testing

EDUCATION

Bachelor of Engineering, Computer Engineering | SSBT's College of Engineering & Technology, Bambhori 2023 – Present
Kavayitri Bahinabai Chaudhari North Maharashtra University, Jalgaon

HSC (12th) | M.J. College, Jalgaon

EXPERIENCE

Artificial Intelligence Intern | Edunet Foundation (Microsoft Skills for Jobs Program) *Jun 2025 – Jul 2025*

Remote

- Selected for a Microsoft-backed AI internship program focused on applied AI fundamentals and problem-solving.
- Worked on AI-focused learning modules and guided project work as part of a structured national skilling initiative.

UI/UX Intern | UptoSkills

Feb 2025 – May 2025

Remote

- Conducted user research, wireframing, and prototyping for design projects using Figma.
- Performed usability testing and iterated on designs based on user feedback.
- Collaborated with cross-functional team members to refine UI/UX deliverables.

PROJECTS

EduSearch — Educational Search Engine for Students | College Minor Project

- Built a Flask-based educational search engine with smart search/autocomplete, live results via DuckDuckGo integration, and a JSON API endpoint (/api/search).
- Implemented dark mode, saved-searches, and a fully responsive UI across 8+ routes (home, search, study tips, login, about).
- Wrote complete project documentation including setup instructions and folder structure. Repository: github.com/Gayatroidroid/Open-Source-Engine-for-Student

Personal Portfolio Website | Personal Project

- Designed and built a personal portfolio site showcasing projects, skills, and certifications using HTML/CSS.
- Live at: gayatroidroid.github.io/my-portfolio

CERTIFICATIONS

- JP Morgan — Quantitative Research Job Simulation
- Microsoft Skills for Jobs — AI Internship Program (Edunet Foundation)
- Getting Started with Microsoft Excel
- Claude 101

LANGUAGES

Marathi (Native), Hindi (Elementary), English (Working Proficiency)
